**C Cybersecurity | ISO/IEC 27001 & ISMS | Threat Detection & Honeypots | Web Security |
Machine Learning | Computer Vision | Deep Learning**

Second year BTech CSE (Cyber Security) student with strong hands-on experience in cybersecurity, AI/ML, and startup building. Co-founder and CTO of a student startup selected under MSME and FundR 1.0 at IIT Madras. Experienced in research, full stack development, and applied security through projects, CTFs, and real-world deployments.

WORK EXPERIENCE

SUMMER INTERNSHIP AT TATA STEEL UISL

ISMS IMPLEMENTATION INTERNAL AUDIT

Summer Intern at TATA STEEL UISL (18th May, 2026 to 28th June, 2026)

- Performed ISMS internal audit activities, including control verification, evidence collection, and compliance assessment against **ISO/IEC 27001**.
- Conducted risk assessments and reviewed security controls using **ISO 31000** risk management principles to identify compliance gaps.
- Prepared audit documentation, tracked corrective actions, and gained hands-on experience with **ISO/IEC 42001**, information security governance, and regulatory compliance.

RESEARCH EXPERIENCE

Research Paper: Traffic Density Classification using YOLO

First Year Undergraduate Research

- Built a traffic density classifier by fine tuning a YOLO model
- Worked on dataset preprocessing, model training, and evaluation
- Applied computer vision techniques for real time traffic analysis

Research paper submitted to the Springer proceedings of the International Conference on Emerging Technologies in Transportation for a Sustainable Future (ICETTSF 2025), organized by PSG College of Technology in collaboration with Clemson University International Center for Automotive Research (CU-ICAR), USA.

STARTUP EXPERIENCE

CarbonCTRL

Co-founder and Chief Technology Officer

- Selected under MSME and FundR 1.0 at IIT Madras
- Designed and developed the frontend of the CarbonCTRL website
- Built a Deep Q Neural Network based model for system optimization
- Led technical architecture, AI integration, and deployment decisions
- Collaborated with cross functional teams on product and strategy

TECHNICAL LEADERSHIP

Hack Club VIT Chennai

Vice Chairperson (2026 – Present)

Previously AI/ML Lead (2025 – 2026)

- Lead club operations, technical initiatives, and strategic planning alongside the executive committee.
 - Organize hackathons, workshops, and technical events for the student community.
 - Mentor students in AI/ML and cybersecurity through hands-on projects and sessions.
 - Coordinate cross-functional teams to execute club activities and industry collaborations.
-

Cyber Security Projects

Cryptx

- Designed and implemented a linux based container for interactive learning
- Focused on secure systems and cryptographic concepts

Advanced DNS Tracking and Honeypot System

- Built a cybersecurity system to track malicious DNS activity
- Implemented honeypots to analyze attacker behavior
- Improved threat detection and logging mechanisms

Deep Learning Seat Occupancy Detection System

VIT Chennai Library

- Designed and developed a deep learning-based model to detect real time seat occupancy in the VIT Chennai library
 - Used computer vision techniques to analyse live camera feeds and classify occupied and vacant seats
 - Improved space utilization and student accessibility by providing accurate occupancy insights
 - Project was officially recognized by the VIT Chennai Library management
 - Ongoing project with continuous model optimization and deployment enhancements
-

EDUCATION

Vellore Institute of Technology, Chennai

BTech in Computer Science and Engineering (Cyber Security)

2024 – 2028

CGPA: 9.40 / 10

Ranked 4th in the CyberSecurity branch.

ISC Class XII

97.25 percent | Branch Topper

ICSE Class X

98.4 percent | School Topper

Sacred Heart Convent School, Jamshedpur

PROFESSIONAL SKILLS

- Programming Languages: Java, C, C++, Python, JavaScript
- Web Development: HTML, CSS, JavaScript, Next.js
- Cyber Security: Kali Linux, Cryptography, Web Exploitation, DNS Security, Honeypots

Harleen

7462900157 | harleen.reet23@gmail.com

- AI and ML: Machine Learning, Deep Learning, YOLO, Reinforcement Learning, CNN, Computer Vision, Model Fine Tuning
- Competitive Programming: DSA in Java
- Tools and Platforms: Git, Linux, VS Code, Node

ADDITIONAL SKILLS

- Startup and early-stage product experience
- Technical documentation and research writing
- Strong proficiency in Excel, Google Docs, and PowerPoint
- Comfortable with presentations, pitching, and demos

AWARDS AND HONORS

Academic Excellence Award – VIT Chennai | 2026

- Ranked 4th in the Cyber Security branch.
- Felicitated by the university for outstanding academic performance.

Branch Topper, ISC Class XII – Jamshedpur, India | 2024

- Secured 97.25 percent and ranked first in branch
- Recognized for consistent academic excellence

School Topper, ICSE Class X – Jamshedpur, India | 2022

- Secured 98.4 percent and ranked first in school
- Awarded for outstanding academic performance

PROFESSIONAL MEMBERSHIPS

- Vice Chairperson, Hack Club VIT Chennai (2026–Present)
